

Jigsaw PSHE 3-11 progression ladder

In PSHE we equip our pupils with the knowledge and skills to become healthy, independent and responsible members of society as well as developing the “whole child” intellectually, morally, socially and emotionally. We aim to equip for pupils to use this knowledge to make informed decisions about their well-being, health and relationships and to build their self-efficacy. In lessons pupils have the opportunity to put this knowledge into practice and to demonstrate the capacity to make sound decisions when facing risks, challenges and real life scenarios.

Our ambitious, high quality and progressive curriculum starts in the Early Years and develops children’s substantive knowledge alongside disciplinary knowledge. Careful sequencing of PSHE units ensures clear progression so that children are building on their prior knowledge, skills and experiences in an age appropriate way.

Jigsaw, the mindful approach to PSHE, is a progressive and spiral scheme of learning. In planning the lessons, Jigsaw PSHE ensures that learning from previous years is revisited and extended, adding new concepts, knowledge and skills, year on year as appropriate. The table below draws out the spiral knowledge and skills progression within all six Puzzles (units of work) including the key vocabulary used in each year group; explicit links to the DfE statutory Relationships and Health Education outcomes have been made in each Puzzle.
